

# ***WHY*** don't I have a real-time monitor in my home showing me what I am spending on electricity?

## **THE CONCEPT IS SIMPLE:**

- If you can measure it, you can manage it
- Will reduce demand
- Will help save money immediately
- Will help save environment
- A great education tool for kids (and adults)
- It is a Win-Win for everyone
- There is no downside!

## **WITH TED IN YOUR HOME, YOU WILL IMMEDIATELY KNOW:**

- How much electricity is being consumed that very minute
- How much money is spent each day on electricity
- How much has been spent so far this billing cycle
- What your electricity bill **will** be
- Your daily and monthly peak demand
- The cost of every electrical device in your home
- and much, much more!

## MISCELLANEOUS FEATURES

- Works With All Meters - Digital, Mechanical, AMR
- Display Unit may be Wall-Mounted
- There are No Batteries
- Maintains Data During Power Failure
- Accuracy +/- 2%
- Display Is Updated every 1 Second
